NO FIGHTING TO-DAY.

REASSURING DISPATCHES FROM PINE RIDGE.

Stragglers Pouring into the Agency—Troops Close Behind Them—Gangs of Marauders Committing Depredations—Alarm in North Dakota.

PINE RIDGE, S. D., Jan.—[Special.]—There was no fighting between the United States troops and the Indians to day, and probably there will be none. The indications are that the Indians will come in and give up their arms with but little more delay. The authorities are led to believe this by the numerous stragglers coming in this morning.

The Indian leaders are convinced that it is useless to further resist the military, that in case an engagement should be precipitated, the Indians would be slaughtered mercilessly, and nothing would be gained. They are therefore willing to give up, but are held somewhat in check by the young bucks who want to fight.

The Indians that have broken away from the main body are trying their best to spread terror among the friendlies here. At Captain Dougherty's quarters, just north of the agency, within 2,000 yards of headquarters, pickets have been exchanging shots. The reds are burning buildings near the agency. From the outer line of pickets burning cabins, both to the right and to the lift, could be seen all day, and shots were heard in the direction of the burning buildings. The pickets have been doubled in number.

It is evident that the frenzied element of the young bucks is bent on breaking loose and doing what harm they can to settlers before the main band has a chance to reach the agency. About thirty Indians reached here Sunday morning. The bucks were disarmed just beyond Dougherty's and Campbell's camp. Of the thirty who came in a part were Brules. They have been separated from the Ogalallas, but it is hard to tell now which branch of the Sioux is most vicious.

The main body of reds has moved one mile. They are camped once more and a present of a wagon load of tobacco under a policy of peace will probably keep them there until it is used up. In the meantime the young bucks are going on raids and burning every house that they come across.

General Brooke has closed in to a point occupied Saturday by the Indians. He is now within one mile of the hostiles, and were it not for the fact that the raiders strike to the southwest and east Brooke's command would have its hands full. The reds are using every excuse to avoid hurrying to the agency.

A biting sand-storm is in progress, and the troops on the outposts are suffering terribly. The old guard has had but one night in bed. Their usual fatigue duty in the shape of throwing up redoubts is being performed by musicians, who are usually exempt. The official bulletin from headquarters states that the military is fully strong enough to cope with the forces that are coming in. Captain Pierce, who relieves Royer, arrived at noon Sunday and took immediate charge. The friendlies say they like the change because the man in charge has a life-time position and will not attempt to make money off their rations. Royer, it is said, has received notice not to return here, as he intended doing.

That the school of this agency was in danger of both treachery and assault is borne out by the escape Saturday night of seven girl inmates. They were induced to leave by their relatives and friends, who have for some time hung about the school grounds. Superintendent Wheeler has secured American Horse to aid him in catching the runaways.

BISMARCK, N. D., Jan. 12.—Governor Burke has received a number of telegrams from citizens of Bottineau, Devil's Lake, Willow City and other places in the northern part of the State urgently appealing for arms and amunition as a means of protection against the Indians. It seems that the movements of several small bands in the Turtle mountains and vicinity have greatly alarmed the settlers. The ghost dance is in progress in that region and the Indians appear to be concentrating in the Turtle mountains on both sides of the Canadian line. They are well armed and are frightening the inhabitants who are flocking into the villages. Governor Burke has sent an agent to the scene with 2,000 rounds of ammunition and has telegraphed the War Department for 1,000 stand of arms. The Adjutant-General has been notified to have the militia of the State, numbering about 500 men, in readiness to move at a moment's notice.

DELORAINE, Man., Jan. 12.—A report reached this point at noon that a fight had occurred early Sunday morning between the Canadian mounted police and the Turtle Mountain Indians at Fish lake, on the boundary line between Dakota and Manitoba. One policeman and three Indians are said to have been killed. There were only ten or twelve of the officers, who are expected here with details of the skirmish. Thirty mounted policemen are on their way to the reservation from Brandon and are expected to reach there this morning. They can not, however, cope with the savages, who number about 400 bucks.

WINNIPEG, Man., Jan. 12.—Alarm has been spread in the southern part of the province by the report brought to Deloraine that the Indians have left the Turtle Mountain reservation south of the boundary and gone on the warpath, plundering settlers and killing cattle. Forty families in North Dakota have taken refuge in Bottineau and more are coming in in great alarm. Deloraine people are greatly troubled, fearing that the Indians will go north and plunder Southern Manitoba.

STARVING BY HUNDREDS.

Fearful Suffering in England—Two Hundred Thousand Persons in London Unable to Obtain Work, Many Dying from Hunger and Cold.

LONDON, Jan. 12. — The rigorous weather continues and the distress among the working classes, caused by seven weeks of frost and snow, has assumed terrible proportions. In London alone it is believed there are nearly 200,000 men without work, and every city in the kingdom reports a proportionate number. Most of the local authorities have lamentably failed in their duty toward the suffering poor, and private charity, although given everywhere in generous measure, has proved sadly inadequate owing to the tremendous magnitude of the evil. The Socialist agitators never had more promising material for their purposes, and they are seeking to utilize it to the fullest extent. The Government has received information which proves that agitators have for weeks past been busily engaged among the poor people inciting them to violence. Starving men are told of abundance, wealth and abounding luxury in the West End, and are urged to seize forcibly that which they will never obtain by quiescent suffering.

Saturday afternoon the alarm reached police headquarters that a mob was marching upon Northumberland avenue and Pall Mall with the avowed intention of looting the big hotels and the aristocratic clubs. The warning was immediately sent to St. George's barracks, hard by Trafalgar square, and the police reserves were summoned by telegraph from all parts of the metropolis. A mob of about 200 tattered, hunger-pinched men actually did march along the Thames embankments, but their stomachs were too empty for fight. They advanced as far as the Savoy Hotel, and there catchiug sight of a strong body of police promptly followed the example of their leader, a well-known revolutionary spouter, and bolted into space.

It is hardly an exaggeration to say that the unusual cold has completely upset the English, hundreds of people of advanced years having been actually killed by it, not alone by the creation of pneumonic and pulmonary diseases, but by the actual severity of the weather benumbing and freezing them to death. The death notices are phenomenally numerous and the hospitals are overcrowded with those who, unused to the slippery walks, have fallen and broken arms or legs. But more severe than all else is the fish and vegetable famine prevailing. Fish is such a luxury that it commands the highest prices. Vegetables are at just double their former figures, and in buying one is sure to find many that are frost bitten or otherwise spoiled. This serious condition of the produce market has filled the police courts with men and women charged with stealing food, or that which they might exchange for food, and many of the poor creatures actually crave the fare of the prison to save them from starvation on the streets.

LONDON, Jan. 11.—The British government now has about ten miles of railway started in Ireland, and several thousand persons are employed at from twelve to thirteen shillings per week. In addition, in the counties of Mayo, Galway and Donegal, where severe distress exists, men, women and children are employed at road-making at from seven shillings a week for men to five shillings a week for children. Huts have been erected for working people unable to go to their homes at night. Mr. Sexton, the Irish member of Parliament, says that he intends to introduce a measure of relief for Irish farm laborers as an amendment or appendix to the land purchase bill, which only helps the farmer.

PEACE REIGNS AT LINCOLN.

Ex-Governor Thayer Remains Obdurate, but Hostilities Are Temporarily Suspended.

LINCOLN, Neb., Jan. 12.—There is peace and quiet at the capitol, and though there are still two Governors there is no trouble. A broad hall divides their several strongholds, which are guarded by clerks. Ex-Governor Thayer went home Saturday night, the first time since Wednesday night, while Governor Boyd went to Omaha Saturday afternoon. The militia has recognized Governor Boyd, and at command of Victor Vifquain, his new Adjutant-General, they moved out of the capitol building.

KANSAS CITY, Mo., Jan. 12.—Nicholas Brokovitchski shot himself here. He died instantly. Thirty years ago Brokovitchski was a General in the Russian army. He was found guilty and sentenced to Siberia. Just as he reached the frontier he escaped and sailed to this country. After he got here he became a pronounced Nihilist.

No indignity was offered Mrs. Campbell except the tying and gagging.

TWO LIVES TAKEN BY A GAMBLER'S PISTOL.

Frank Mitchell, Urged by Jealousy, Kills His Wife and Turns His Weapon upon Himself, with Fatal Effect—Two Bodies Side by Side.

ST. LOUIS, January 12.—[Special.]—With the smoking revolver with which he had killed his wife still clutched in his hand, Frank F. Mitchell fell dead early this morning. The tragedy was enacted in the appartments in which the couple had been living.

Mitchell was a gambler. He had shot the woman apparently from behind, killing her instantly, and had then turned the weapon upon himself. The two bodies lay in pools of blood within a few feet of each other. Jealousy was supposed to be the cause of the crime.

BILLIONS IN A COMBINE.

The Greatest Trust Ever Formed—More Than 65,000 Miles of Railway, with a Capitalization of $3,000,000,000, to Work Harmoniously.

NEW YORK, Jan. 12.—More than 65,000 miles of railway, with a capitalization of over $3,000,000,000, which is about four times as much as the net amount of the National debt of the United States, have united in forming the greatest combination of industrial interests and capital in the history of the world. Saturday the agreement forming the Western Traffic Association was adopted by the representatives of the Western railroad systems controlling the traffic between Chicago and the Mississippi river valley in the east, the Pacific Ocean on the west and the boundary lines of the Nation on the north and south. This vast aggregation of railroad interests will be directed jointly from Chicago and New York, with the main operating offices in Chicago. Its first chief executive officer is Roswell Miller, president of the Chicago, Milwaukee & St. Paul railway. He will serve for a year without salary. Never before has an equally conspicuous body of railroad men been brought together or have such high officials done so much personal work in organizing an association.

The advisory board will hold another meeting to-day at 10 a. m. to elect a chief commissioner and a corps of assistants, upon whom it will devolve to set the machinery in motion and keep it in order. The real troubles are yet to be met in deciding how business shall be divided among the lines to prevent disturbance of rates.

FOR A THIRD PARTY.

Mr. Powderly Recommends a Joint Conference of Industrial Organizations to Prepare for Independent Political Action in 1892.

PITTSBURGH, Pa., Jan 12.—General Master Workman Powderly of the Knights of Labor has just issued a circular recommending a joint conference of industrial organizations to be held next July at Washington for the purpose of formulating a political industrial platform. The object of the conference is to perfect measures and form a third party for aggressive educational and political work in the campaign of 1892, which, it is declared, should result in the election of a President and Congressmen committed to the interests of labor.

THE FIRST IN FOUR YEARS.

Five Inches of the Beautiful Snow at Del Rio, Tex.—Cattle Will Suffer.

SAN ANTONIO, Tex., Jan. 12.—Snow fell Saturday night at Del Rio, 150 miles west of here, on the Southern Pacific road. This was the first in four years, and the fall was the deepest on record, being about five inches. The storm was general, and from Del Rio east to San Antonio, brought rain. The rain was the heaviest in the past year. It is reported that the storm was most severe further west, in the Devil's river country, where cattle drifted badly before the wind, and will suffer severely in the deep snow which fell there.

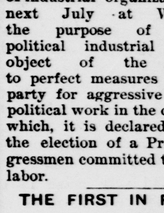

MANY FELL IN BATTLE.

Four Hundred Natives in Senegal Killed in a Fight with the French.

PARIS, Jan. 12.—Advices received here from St. Louis, the chief town of Senegal, bring the news that the French troops under Commander Archinard have carried by assault the fortress of Micara, belonging to the Sultan Ahmad. During the battle 400 natives were killed and wounded of 8,000 natives engaged. On the French side fifty-one native soldiers were killed and several were dangerously wounded.

FARMERS WERE SKEPTICAL.

When the Farmers' Alliance met a month ago at Ocala, T. V. Powderly went down there to capture it. Several of his lieutenants had preceded him and had done their best to work up sentiment among the farmers for a third party which should consist of the Alliance, the Knights of Labor and other secret organizations of laboring men.

Somehow the scheme did not work quite as well as was expected. Powderly was well received, and made two or three addresses, but the majority of the Alliance men were shy. They did not trust him. They remembered that "fine words butter no parsnips." So it came about that the third party call was not acted upon by the Alliance officially, or even presented to it for official action, and its promoters were obliged to be content with getting the signatures of as many individual members as the could secure.

The call that was circulated at Ocala named February 23 1891, as the date for holding a "people's party" convention and Cincinnati as the place. The K of L. leaders, however, found their quest so unsuccessful that they gave up the idea of capturing the farmers in mass this year. The call issued last week by T. W. Powderly was for a "labor conference." No delegates from the Farmers' Alliance will be there as Alliance delegates.

Therefore, notwithstanding Powderly's announcement that this "is not intended to be a Knight of Labor gathering," the coming conference will be little or nothing else, and will doubtless receive the amount of attention its unimportance deserves.

A day or two more and the senatorial elections in the various states will be coming on. There are twenty-eight places to be filled, and several eminent men will retire. Among them are Spooner, Ingalls and Evarts. Blair may possibly pull through again in New Hampshire, but it is very doubtful. The Kansas fight is still very much in the dark. It is apparent that Voorhees and Vest will be re-elected. The most important result, from a political standpoint, in New York, where the successor of Evarts may have something to do with the next democratic presidential nomination.

The sentiment was enthusiastically applauded by Banker Kean's creditors in Chicago that "a man who carried his religion as far into business as did Banker Kean was a dangerous man." It is a vastly greater misfortune to a community when a man who has been given a high moral or religious standing goes wrong than it is in the case of the average or neutral-tinted individual. The shock to confidence and suspicion with which all visible signs of integrity are looked at are danger signals.

The new liquor law which recently went into effect in Baltimore, has undoubtedly done much good, decreasing the sale of liquor to a certain extent. The high license has tended to place the business in better hands, and the city now derives a revenue of $500,000, whereas under the old law it did not receive a cent. Another significant fact is found in the statement that, while the city has increased 10,000 in population during the past year, the decrease of crime has been proportionately great.

An organized attempt will be made in North Dakota to fight the harvester trust. The companies represented in the combine have $3,000,000 outstanding in notes in the state and the makers propose to fight their collection on the high ground that the trust is contrary to the laws of the United States and the state, and therefore had no legal standing in the courts. Every movement calculated to put the anti-trust into effect will meet popular approval.

The great American prototype, Sockless Simpson, is said to enjoy all the stories in circulation about him except those which refer to the absence of his socks. But as these are the only stories in circulation about him, Mr. Simpson must remain in a continual state of indignation.

From all accounts the Salvation Army meeting at Racine last Thursday, must have been very affecting. Some one sprinkled red pepper on the stove, and poured a hand-full in the cornet. There was not a dry eye in the house.

Honor and self respect have taken a fresh start in political life in Missouri. Five members of the Kansas City council refuse to associate with the indicted members of that body.

PARNELL IN IRELAND.

He Addresses an Audience of 20,000 at Limerick.

LIMERICK, Jan. 12.—Mr. Parnell addressed an assemblage of 20,000 people here Sunday and met with an enthusiastic reception. He took the ground that Mr. Gladstone had caused the present trouble by issuing his mandatory letter demanding that the Irish members depose their leader. Referring to Mr. Gladstone's denial of the accuracy of his statements respecting the Hawarden interview, Mr. Parnell said he could now confirm the truth of his former statements by a letter written by him (Parnell) on March 18, only three months after that interview, when the matter was still fresh in his mind, and when even his bitterest enemy could not say that he had any reason to misrepresent the facts or suppress the truth. The letter was sent to Cecil Rhodes, premier of Cape Colony, an adherent of home rule. In the letter Mr. Parnell stated that Mr. Gladstone and his colleagues had been considering fully the question of the retention of the Irish members, and that Mr. Gladstone had told him that the retention of thirty-three Irish members in the imperial Parliament was finally considered best for all purposes. Mr. Parnell read the letter, proving that the statement which he sent to Rhodes corresponded with the assertions in the manifesto issued by Mr. Parnell and which Mr. Gladstone had contradicted.

Mr. Parnell proceeded to say that Mr. Gladstone had pointed to certain of his own public declarations as disproving Mr. Parnell's version of the interview, but it was difficult to make any thing out of these declarations because Mr. Gladstone possessed a marvelous faculty of placing a different interpretation upon any statement of his than that placed upon it by his opponents. Mr. O'Brien, to whom he had communicated an outline of the Hawarden conversation, had a memory of it exactly identical with that of Mr. Parnell respecting Mr. Gladstone's proposal as to the number of members to be retained.

Whatever might be the motive of Irish members in opposing him, it was certain that they were not in a position by their knowledge of the condition of affairs to sit in judgment upon him or to pretend to express the opinion of the country. It was ever to be regretted that their blind haste to follow new leaders impelled them to press forward the decision in the committee-room as if minutes were golden. Many of them must now wish that they had paused, and instead of sending misleading telegrams across the Atlantic [cries of "Hear"]—had awaited the return of O'Brien—[cheers]—whose advice and judgment would have been esteemed and respected by him, as it would have been compulsory on them. He could not forecast the result of the present negotiations without a breach of confidence. But he thought that Mr. O'Brien would not object to his saying that so far the negotiations had resulted in agreement, and they fully recognized that future steps would have to be taken by other men, upon whom a very great responsibility would rest if Mr. O'Brien be not able to resume the negotiations with an assured hope of success. For himself, he only asked them to believe that he had not been actuated by the contemptible and paltry motives attributed to him. As soon as the future of the Irish question was secured he would cheerfully retire from the leadership. [Cries of "No."] He should scarcely be asked to lead the party composed as it was at present. He believed that the future would vindicate him fully.

LONDON, Jan. 12.—It is stated authoritatively that irrespective of any compromise between Messrs. Parnell and O'Brien, Justin McCarthy is determined to retain the position of chairman, and will be a party to no bargain between Messrs. Parnell and O'Brien. This is the view he takes of what is due to himself. McCarthy is urged by Mr. Gladstone's associates, by the clergy and by the rabid Healyites to stand firm in the chairmanship, and at present he shows no signs of vacating.

SENATOR HEARST DYING.

His Relatives Give Up Hope and Are Summoned to His Bedside.

NEW YORK, Jan. 12.—A Washington special says that Senator George Hearst, of California, is at death's door. His family have given up all hope of his recovery and the relatives have been summoned to his bedside. The malady, cancer of the stomach, has grown far more aggravated within the last day or two, and the Senator suffers intensely. His 72 years make the fight for life one-sided and news of his death may now be expected at almost any hour. His advisers have been engaged recently in invoicing his estate and they say that he will leave a fortune of at least $20,000,000.

Heard a Funeral Sermon by Telephone.

ELMIRA, N. Y., Jan. 12.—Rev. T. D. Beecher on Sunday preached the funeral sermon of Mrs. Langdon, mother of Mrs. S. L. Clemens. Neither Mr. Clemens nor his wife attended, but listened by telephone, 450 miles away, in Hartford, Conn.

Willing to Pay Half.

ANN ARBOR, Mich., Jan. 12.—Mr. Joshua W. Waterman, of Detroit, an alumnus of Yale, offers $20,000 to the University of Michigan for a gymnasium, on condition that the graduates and friends of the University raise $20,000 more for the same object.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

Idaho Legislators Protest Against the Seating of Senator Dubois.

WASHINGTON, Jan. 10.—The Vice-President laid before the Senate Saturday the protest of twenty-three members of the Legislature of Idaho against the seating of Fred T. Dubois as a Senator from that State. It is charged that he was not legally elected because the Senate did not organize on the day provided by law, and because after electing two Federal Senators to fill the two existing vacancies the Legislature proceeded to elect Dubois as third Senator for a vacancy which did not exist and will not exist till March 4, 1891. A message from the President was read forwarding a memorial of the Legislative Assembly of Oklahoma for an appropriation for the relief of the destitute people of that Territory. House bills appropriating $100,000 for a public building at Rockford, Ill., and $400,000 for one in Pueblo, Col., were passed with amendments and conferences were asked.

In the House the army appropriation bill was debated at length without action. Eulogies on the late Representative Walker, of Missouri, were delivered.

GOT THE WORST OF THE GAME.

How a Kansas Sheriff Lost a Prisoner and Was Fatally Hurt.

MARYVILLE, Kan., Jan. 12.—At 4:30 Sunday afternoon a prisoner named Crozier made his escape from the Marshall County jail at this place. Sheriff Bentley and three of the prisoners, Crozier being one, were playing cards. Crozier walked to the stove, which was behind the sheriff, picked up a shovel and struck the sheriff on the side of the head, cutting a deep gash. He also gave the official a hard blow with the back of the shovel full in the face, knocking him senseless. Crozier then pulled a revolver out of the sheriff's pocket, and holding the other prisoners at bay backed out of the jail. The sheriff is not expected to live. Twenty men are hunting for Crozier and if caught he will probably be lynched. Crozier was in jail for stealing a team of horses at Summerfield, this county.

MINERS KILLED.

Two Lives Lost and a Couple of Men Hurt by a Peculiar Accident at a West Virginia Mine.

ELK GARDEN, W. Va., Jan. 12.—A terrible accident occurred at the Atlantic mine near this place. When half way up the cable of an incline broke and the car started down. Two men jumped and were saved, but the third, John Devanney, was killed. The car dashed into a group around the fire, killing Jeff Paugh. Curtis Owens had three pounds of powder in his pocket. He was knocked into the fire and the powder exploded, burning him badly. Frank Hughes had an arm broken and others sustained bad bruises.

Natural Gas Near Bloomington, Ill.

BLOOMINGTON, Ill., Jan. 12.—A strong natural-gas well has been struck on the farm of A. B. Funk near this city. Mr. Funk was engaged in sinking a well and when at the depth of seventy feet the reservoir of the gas was tapped. The gas ignited and burned with a terrific roar, the flames burning more than fifty feet high. The pressure is unusually heavy for wells in this locality, and it is believed the supply of gas will prove permanent.

Robbed an Express Office.

JACKSONVILLE, Fla., Jan. 12.—Saturday night during the temporary absence of its agent the office of the Pacific Express Company at this place was broken into by burglars and ten or twelve money packages carried away. As they were transfer packages and the waybills were also stolen it is impossible to state the amount of money secured.

Boiler-Makers Assign.

SPRINGFIELD, O., Jan. 12.—Armstrong Brothers, boiler-makers, have assigned to Robert Johnson. The firm employed 250 men and has been running night and day. A large contract for the American Cotton Seed Oil Company precipitated the crash. The firm could not get rid of its paper except at a heavy discount. Liabilities, $40,000; assets, $100,000.

Looks Bad for the Creditors.

DETROIT, Mich., Jan. 12.—The report of the receivers of the J. E. Potts Salt & Lumber Company was filed Saturday and proved a great surprise. It was thought at the time of the assignment that the failure was not so serious as it now proves to be. The report shows the balance of liabilities and contingent liabilities over assets to be $966,240.77.

A School-Master in Trouble.

MATTOON, Ill., Jan. 12.—In Pleasant Grove township, eight miles south of Mattoon, a fight occurred between Thomas Walker and Thomas Nichols in which the former stabbed the latter fatally, causing his death Saturday morning. Walker is a school-master and had punished a small brother of Nichols, who took up the defense of his brother.

An Editor Stabbed.

PARIS, Ill., Jan. 19.—Near this city Saturday on a Big Four passenger train Ben S. Whitehead, editor of the Eastern Illinoisan, of Marshall, Ill., was stabbed six times by John Ellidge, a farmer, from whom he was trying to collect a bill for subscription. Ellidge escaped. Whitehead is in a critical condition.

A Bloodthirsty Peasant.

LONDON, Jan. 12.—At Milan Friday Luihi Cordega, a peasant, while drunk, murdered his father and a friend who was with him and stabbed nine other persons. Cordega then went to sleep and on awakening was almost without recollection of what he had done in his frenzy.

A Failure at Wellington, Kan.

WICHITA, Kan., Jan. 12.—The large carriage works of Clarke & Brown at Wellington, Sumner County, has made an assignment in favor of the creditors. The liabilities are variously estimated from $30,000 to $40,000; assets unknown.

Disorders Which Effect the Kidneys.

Are among the most formidable known. Diabetes, Bright's disease, gravel and other complaints of the urinary organs are not ordinarily cured in severe cases, but they may be averted by timely medication. A useful stimulant of the urinary glands has ever been found in Hostetter's Stomach Bitters, a medicine which not only affords the requisite stimulus when they become inactive, but increases their vigor and secretive power. By increasing the activity of the kidneys and bladder, this medicine has the additional effect of expelling from the blood impurities which it is the peculiar office of those organs to eliminate and pass off. The Bitters is also a purifier and strengthener of the bowels, and invigorant of the stomach, and a matchless remedy for biliousness and fever and ague. It counteracts a tendency to premature decay and sustains and comforts the aged and infirm.

TO NON-CHURCHGOERS.

DR. TALMAGE PREACHES TO THE "SHEEP WITHOUT THE FOLD."

All the Christians Do Not Belong to Congregations, but There Are Many Reasons Why All Persons Should Be Christians—A Word to Unbelievers.

BROOKLYN, Jan. 11.—The following powerful sermon, addressed to non-churchgoers, was delivered by Dr. Talmage this morning in the Academy of Music, this city, and again in the evening at the New York Academy of Music, where services are still being held under the auspices of The Christian Herald. At the latter service the new choir of two hundred voices most effectively led the musical exercises. Dr. Talmage's text was John X, 16: "Other sheep I have which are not of this fold."

There is no monopoly in religion. The grace of God is not a nice little property fenced off all for ourselves. It is not a king's park, at which we look through a barred gateway, wishing we might go in and pluck the flowers and look at the deer and the statuary. It is a father's orchard, and there are bars to let down and gates to swing open.

In my boyhood days, next to the country schoolhouse where I went, there was an apple orchard of great luxuriance, owned by a very lame man who did not gather the apples, and they went to waste by scores of bushels. Sometimes the lads of the school, in the sinfulness of a nature inherited from our first parents, who fell through the same temptation, would climb over the fence and take some of these apples, and notwithstanding the fact that there was a surplus, and all going to waste, the owner of that orchard, reckless of making his lameness worse, would take after these lads and shout, "Boys, drop those apples or I'll set the dog on you!"

Now there are Christians who have severe guard over the Church of God. They have a rough and unsympathetic way of treating outsiders. It is a great orchard into which God would like to have all the people come and take the richest and the ripest fruit, and the more they take the better he likes it. But there are those who stand with a hard and severe nature guarding the Church of God, and all the time afraid that some will get these apples when they really ought not to have them.

Have you any idea that because you were baptized at eight months of age, and because you have all your life been surrounded by hallowed influences, you have a right to one whole side of the Lord's table, spreading yourself out so nobody else can sit there? You will have to haul in your elbows, for there will come a great multitude to sit at the table and on both sides of you. You are not going to have this monopoly of religion. "Other sheep I have which are not of this fold."

McDonald, the Scotchman, has on the Scotch hills a great flock of sheep. McDonald has four or five thousand head of sheep. Some are browsing in the heather, some are on the hills, some are in the valleys, a few are in the yard. One day Cameron comes over to McDonald and says: "McDonald, you have thirty sheep. I have been counting them." "Oh, no!" says McDonald. "I have four or five thousand." "Ah!" says Cameron, "you are mistaken. I have just counted them. There are thirty." "Why," says McDonald, "do you suppose that is all the sheep I have? I have sheep on the distant hills and in the valleys, ranging and roaming everywhere. Other sheep have I which are not of this fold."

So Christ comes. Here is a group of Christians, and there is a group of Christians; here is a Methodist fold, here is a Presbyterian fold, here is a Baptist fold, here is a Lutheran fold, and we make our annual statistics, and we think we can tell you just how many Christians there are in the world, how many there are in the church, how many in all these denominations. We aggregate them, and we think we are giving an intelligent and an accurate account; but Christ comes and he says: "You have not counted them right. There are those whom you have never seen, those of whom you have never heard. I have my children in all parts of the earth, on all the islands of the sea, on all the continents, in all the mountains and in all the valleys. Do you think that these few sheep you have counted are all the sheep I have? There is a great multitude that no man can number. Other sheep have I which are not of this fold."

Christ in my text talks of the conversion of the Gentiles as confidently as though they had already been converted. He sets forth the idea that his people will come from all parts of the earth, from all ages, from all circumstances, from all conditions. "Other sheep have I which are not of this fold."

In the first place I remark the Heavenly Shepherd will find many of his sheep among those who are at present non-churchgoers. There are different kinds of churches. Sometimes you will find a church made up only of Christians. Everything seems finished. The church reminds you of those skeleton plants from which by chemical preparation all the greenness and the verdure have been taken, and they are cold and white and delicate and beautiful and finished. All that is wanted is a glass case put over them. The minister on the Sabbath has only to take an ostrich feather and brush off the dust that has accumulated in the last six days of business, and then they are as cold and beautiful and delicate as before. Everything is finished—finished sermons, finished music, finished architecture, finished everything.

Another church is like an armory, the sound of drum and fife calling more recruits to the Lord's army. We say to the applicants, "Come in and get your equipment. Here is the bath in which you are to be cleansed, here is the helmet you are to put on your head, here are the sandals you are to put on your feet, here is the breastplate you are to put over your heart, here is the sword you are to take in your right hand and fight his battle with. Quit yourselves like men."

There are those here, perhaps, who say, "It is now ten, fifteen years since I was in the habit, the regular habit, of church going." I know all about your case. I am going to tell you something that will be startling at the first, and that is that you are going to become the Lord's sheep. "Oh," you say, "that is impossible; you don't know my case; you don't know how far I am from anything of that kind." I know all about your case. I have been up and down the world. I know why some of you do not attend upon Christian services.

I go further, and make another announcement in regard to you, and that is, you are not only to become the Lord's sheep, but you are going to become the Lord's sheep this hour. God is going to call you graciously by his spirit; you are going to come into the fold of Christ. This sermon shall not be so much for those who are Christians. I have preached to them hundreds and thousands of times. The sermon that I preach now is going to be chiefly for those who consider themselves outsiders, but who may happen to be in the house, and the chief employment of the Christian people here today will be to pray for those who are not accustomed to attend upon Christian sanctuaries.

When the steamer Atlantic went to pieces on Mars Rock why did that brave minister of the gospel, of whom we have all read, go out in the lifeboat? Why did he not stay and look after the passengers that got ashore, wrapping flannels around them, and kindling fires for them, and preparing them food. There was plenty of work to be done on shore for those who had already escaped. Ah! that brave man knew that there were others who would take care of those, and so he said: "Man the lifeboat! Pull away, my lads, pull away! Yonder is a man; there is a woman freezing in the rigging. Pull away!" I see the oar blades bend in the strong pull of the oarsmen. Then they come up to the wreck. The woman is frozen. She drops into the wave—alas! poor woman—and washes out to sea. But then Mr. Ancient says: "There is a man yet hanging to the rigging. Pull away, my lads! pull away!" They come up, and he says: "Hold now there five minutes and we will save you. Steady! steady! Now give me your hand. Leap! Thank God, he is saved! Thank God, he is saved!"

So there are men now in the breakers. They have made a shipwreck of life. While we come out to save them, some are swept off—swept off before we can reach them—and there are others still hanging on. Steady there among the slippery places! Steady! Leap into this lifeboat! Now is your chance for heaven! This hour some of you are going to be saved. Far away from God, you are going to be brought nigh. "Other sheep have I which are not of this fold."

Christ says that ministers of the gospel are to be fishers for men. Now, when I go fishing I do not want to fish in anybody else's pond. I do not want to go along Hohokus creek, where there are ten or fifteen men fishing, and drop my line just about where they are dropping their lines. I should like to get in a Newfoundland fishing smack and push out to sea fifty miles beyond the breakers. I do not think the Church of God gains a great deal when you take sheep from one fold and put them in another fold. It is the lost sheep on the mountains you want to bring back—the lost sheep on the mountains. And they are coming today.

You are now this hour in the tide of Christian influences. You are going to be swept in; your voice is going to be heard in prayer; you are going to be consecrated to God; you are going to live a life of usefulness, and your death-bed is going to be surrounded by Christian sympathizers, and devout men will carry you to your burial when your work is done, and these words will be chiseled for your epitaph: "Precious in the sight of the Lord is the death of his saints." And all that history is going to begin today. "Other sheep have I which are not of this fold."

Again I remark, the Heavenly Shepherd is going to find many of his sheep among those who are now rejecters of Christianity. I do not know how you came to reject Christianity. I do not know whether it was through hearing Theodore Parker preach, or whether it was reading Renan's "Life of Jesus," or whether it was through some skeptic in the store or factory. Or it may be—probably is the case—that you were disgusted with religion and disgusted with Christianity because some man who professed to be a Christian defrauded you, and he being a member of the church, and you taking him as a representative of the Christian religion, you said, "Well, if that's religion, I don't want any of it."

I do not know how you came to reject Christianity, but you frankly tell me you do reject it; you do not think the Bible is the word of God, although there are many things in it you admire; you do not think that Christ was a divine being, although you think he was a very good man. You say, "If the Bible be true—the most of the Bible be true—I nevertheless think the earlier part of the Bible is an allegory." And there are fifty things that I believe you do not believe. Nevertheless they tell me in regard to you that you are an accommodating, you are an obliging person. If I should come to you and ask of you a favor you would grant it if it were possible. It would be a joy for you to grant me a favor. If any of your friends came to you and wanted an accommodation and you could accommodate them, how glad you would be!

Now I am going to ask of you a favor. I want you to oblige me. The accommodation will cost you nothing, and you will give me great happiness. Of course you will not deny me. I want you as an experiment to try the Christian religion. If it does not stand the test, discard it; if it does, receive it.

If you were very sick, and you had been given up of the doctors, and I came to you, and I took a bottle of medicine from my pocket and said, "Here is medicine I am sure will help you; it has cured fifty people," you would say, "Oh, I haven't any confidence in it; they tell me all these medicines will fail me." "Well," I say, "will you not, as a matter of accommodation to myself, just try it?" "Well," you say, "I have no objection to trying it; if it will be any satisfaction to you I will try it." You take it. Now you are sick in disquietude, sick in sin. You are not happy. You laugh sometimes when you are miserable. There come surges of unhappiness over your soul that almost swamp you. You are unhappy, struck through with unrest. Now, will you not try this solace, this febrifuge, this anodyne, this Gospel medicine?

"Oh," you say, "I haven't any faith in it." As a matter of accommodation, let me introduce you to the Lord Jesus Christ, the Great Physician. "Why," you say, "I haven't any faith in him." Well, now, will you not just let him come and try his power on your soul? Just let me introduce him to you. I do not ask you to take my word for it, I do not ask you to take the advice of clergymen. Perhaps the clergymen may be prejudiced; perhaps we may be speaking professionally; perhaps we may give you wrong advice; perhaps we are morbid on that subject; so I do not ask you to take the advice of clergymen. I ask you to take the advice of very respectable laymen, such as William Shakespeare, the dramatist; as William Wilberforce, the statesman; as Isaac Newton, the astronomer; as Robert Boyle, the philosopher; as Locke, the metaphysician; as Morse, the electrician.

These men never preached—they never pretended to preach—but they come out, and putting down, one his telescope, and another the electrician's wire, and another the parliamentary scroll—they come out, and they commend Christ as a comfort to all the people, a Christ that the world needs. Now I do not ask you to take the advice of clergymen. Take the advice of these laymen. It does not make any difference to me at this juncture what you have said against the Bible; it does not make any difference to me at this juncture how you may have caricatured religion. Take the advice of men who are prominent in secular affairs, as these men whom I have mentioned and others who immediately occur to your mind. You see I do not scoff at skepticism. I never scoffed at skepticism. I have been a natural skeptic. I do not know what the first word was that I uttered after entering the world, but I think it must have been "why?"

There were times when I doubted the existence of God, when I doubted the divinity of Christ, when I doubted the immortality of the soul, when I doubted my own existence, when I doubted everything. I have been through the whole curriculum of doubt, and you can tell me nothing new about it. I have come out from a great Sahara desert into the calm, warm, sunshiny land of the gospel. I know about the other land. I have been there. You can tell me nothing new about it. And I know all about the other condition of which you do not know anything—the peace, the comfort, the joy, the triumph of trusting in God and in Jesus Christ whom he has sent. So I am not scoffing in regard to it.

There are some things I believe that you do not, but there are some things that I believe and you do believe. You believe in love—a father's love, a mother's love, a wife's love, a child's love. Now let me tell you God loves you more than all of them together, and you must come in, you will come in. Christ looks in all tenderness, with the infinite tenderness of the gospel, into your soul, and he says, "This is your time for heaven," and then he waves his hand to the people of God, and he says, "Other sheep have I which are not of this fold."

Again I remark, the Heavenly Shepherd is going to get many of his sheep among those who have been of evil habit.

It outrages me to see how soon Christian people give up the prodigal. I hear Christian people talk as though they thought the grace of God were a chain of forty or fifty links, and when they had run out then there was nothing to touch the depth of a man's iniquity. If a man were out hunting for deer, and got off the track of the deer, he would hunt amid the bushes and the brakes longer for the lost game than he would look for a lost soul.

They say if a man has had the delirium tremens twice he cannot be cured. They say if a woman has fallen from integrity she cannot be redeemed. All of which is an infinite slander on the gospel of the Son of God. Men who say that know nothing about practical religion in their own hearts. How many times will God take back a man who has fallen? Well, I cannot give you the exact figures, but I can tell you at what point he certainly will take him back. Four hundred and ninety times. Why do I say four hundred and ninety times? Because the Bible says seventy times seven.

Now figure that out, you who do not think a man can fall four times, eight times, ten times, twenty times, one hundred times, four hundred times, and yet be saved. Four hundred and ninety times! Why, there is a great multitude before the throne of God who plunged into all the depths of iniquity. There were no sins they did not commit; but they were washed of body and washed of mind and washed of soul, and they are before the throne of God now forever happy. I say that to encourage any man who feels there is no chance for him.

Good Templars will not save you, although they are a grand institution. Sons of Temperance will not save you, although there is no better society on earth. Signing the temperance pledge will not save you, although it is a grand thing to do. No one but God can save you. Do not put your confidence in bromide of potassium or anything that the apothecary can mix. Put your trust in God! After the church has cast you off, and the bank has cast you off, and social circles have cast you off, and all good society has cast you off, and father has cast you off, and mother has cast you off, at your first cry for help God will bend clean down to that ditch of your iniquity to help you out. Oh, what a God he is! Long suffering and gracious!

There may be in this house some whose hand trembles so with dissipation they could hardly hold a hymn book. I say to such if they are here: "You will preach the gospel yet. You will yet, some of you, carry the holy communion through the aisles, and you will be acceptable to everybody because everybody will know you are saved and purified by the grace of God, and a consecrated man, wholly consecrated. Your business has got to come up, your physical health is to be rebuilt, your family is to be restored, the Church of God on earth and in heaven is to rejoice over your coming. 'Other sheep have I which are not of this fold.'" If this is not the gospel I do not know what the gospel is. It can scale any height, it can fathom any depth, it can compass any infinity. I think one reason why there are not more people saved is we do not swing the door wide enough open.

Now there is only one class of persons in this house about whom I have any despondency, and that is those who have been hearing the gospel for perhaps twenty, thirty, forty years. Their outward life is moral, but they tell you frankly they do not love the Lord Jesus Christ, have not trusted him, have not been born again by the spirit of God. They are gospel hardened. The gospel has no more effect upon them than the shining of the moon on the city pavement. The publicans and the harlots go into the kingdom of God before they. They went through, some of them, the revival of 1857, when 500,000 souls were brought to God. Some of them went through great revivals in individual churches. Still unpardoned, unblessed, unsaved. They were merely spectators. Gospel hardened! After awhile we will hear that they are sick, and then that they are dead, and then that they died without any hope. Gospel hardened!

But I turn away from all such with a thrill of hope to those who are not gospel hardened. Some of you have not heard, perhaps, five sermons in five years. This whole subject has been a novelty to you for some time. You are not gospel hardened; you know you are not gospel hardened. The whole subject comes freshly to your mind. I hear some soul saying: "Oh, my wasted life! Oh, the bitter past! Oh, the graves I stumbled over! Whither shall I fly? The future is so dark, so dark, so very dark! God help me!"

Oh, I am so glad for that last utterance! That was a prayer, and as soon as you begin to pray that turns heaven this way, and God steps in, and he beats back the hounds of temptation to their kennels, and he throws all around the pursued soul the covert of his pardoning mercy. I heard something fall. What was it? It was the bars around the sheepfold, the bars of the fence around the sheepfold. The Heavenly Shepherd let them fall, and the hunted sheep of the mountain come bounding in, some with fleece torn of the brambles, and others with feet lame from the dogs, but bounding in. Thank God! "Other sheep have I which are not of this fold."

God forbid that any of you should have the lamentation of the dying nobleman who had had every opportunity of salvation, but rejected all, and who wrote or dictated these words: "Before you receive this my final state will be determined. I am throwing my last stake for eternity, and tremble and shudder for the important issue. Oh, my friend, with what horror do I recall the hours of vanity we have wasted together; but I have a splendid passage to the grave. I die in state, and languish under a gilded canopy. I am expiring on soft and downy pillows, and am respectfully attended by my servants and physicians. My dependants sigh, my sisters weep, my father bends beneath a load of years and grief. But oh! which of these will answer my summons at the high tribunal? And which of these will bail me from the arrest of death? While some flattering panegyric is pronounced at my interment, I may be hearing my just condemnation at a supreme tribunal. Adieu!"

A Rubber Sidewalk.

There is a length of rubber sidewalk in Edinburgh, and I want to tell you it is the finest sidewalk in the world. It is only about 25 feet long, and the sidewalk is about 8 feet wide. The rubber is fluted so as to allow the water to run off quickly, and the surface is the most comfortable to walk on that can well be imagined. You can't slip if you try, and there is a spring and a "give" that is most restful to the tired man.

It was laid as an advertisement by a shopkeeper who sells "macintoshes" and "goloshes," as he calls rubber coats and rubbers, and although the expense must have been heavy I imagine it must have yielded good results. He told me the rubber was two inches thick and was laid on a four inch bed of concrete. In four years it has shown no appreciable signs of wear, but mischievous boys have cut it in places.—Interview St. Louis Globe-Democrat.

STORY OF A BRAVE GIRL

A JANESVILLE ROMANCE WITH A HAPPY ENDING.

How an Orphan Who Found Shelter in a Bower City Home Won by Her Grace and Gentleness Much of the World's Favor.

A few years ago a little German-French girl was thrown upon the cold charity of the world in Jefferson county. Her parents were dead, and there were no relatives to give her shelter or otherwise provide for her living. She was a bright, good-natured little thing, and her unfortunate condition attracted the attention, and elicited the sympathy of one whose heart always went out to the helpless and needy. He didn't have much of this world's himself, but he had a love strong enough to the lonely child to give it a home and kindly care. So he took the little one—who we shall call Laura, because that is not her name—to his own home, and thereafter she never lacked a father's joy or a mother's love, for she became as one born in the family.

Soon after this the family came to Janesville, where they remained a short time. Laura grew into graceful girlhood, and also in the affection of her foster parents and their friends.

But her life outside the home was not the happiest. Her parentage became known to some of her young companions, and you know how it delights some people to rasp the feelings of others, by telling them of their misfortunes or reminding them of their low estate. So Laura had to contend with that element of human weakness, or human depravity, which ever you see fit to name it, and her path, which promised to be bright with sunshine, had its frequent shadows.

The family moved to a northern city several years ago where Laura grew to young womanhood, and out of the recollection of those who knew her in her orphanage. She became accomplished in many ways, was recognized in all respects as one of the family, and her chief glory was her uncommon good sense and sweetness of disposition. But the busybody and the tattler seem to dwell everywhere, and are never in contentment unless they are making others miserable and so whenever Laura would begin to win new friendships, there would be some one ready with the information that she was "nothing but a Dutch girl" and that her parents died in poverty. But in the midst of all this trouble and discouragement, Laura's good sense womanly conscience never deserted her.

Finally a young man of splendid heart and who has many of the good things of this life and is prominent in business, was attracted to Laura, and recently she became his wife. In all that thrifty town there is not a lovlier home than theirs: and the future of no newly wedded couple is brighter with promise. For Laura it was a battle of life well fought and a victory well but modestly won.

"LET THE KILLING BEGIN."

So Says A Correspondent In Speaking Of Janesville Dogs.

EDITOR GAZETTE.—It is gratifying to find our citizens agitating the dog nuisance question. We doubt if there is a city in the union cursed with each an unfortunate proportion of dogs to its inhabitants as Janesville, and the worst feature is the evil is increasing instead of abating. There is one vicious cur in particular, owned by an east side business man, that daily imperils the lives of our citizens by running, jumping and barking at the head and heels of horses, driven by both ladies and gentlemen, and the owners attention has more than once been called to the fact.

If there is a city ordinance requiring unlicensed dogs to be destroyed and vicious ones to be killed any how, why is the same not enforced. The attention of the city fathers not interested in dog farming, is respectfully called to this matter. Go it, William Horn, M. D. V. S. Go it, Jenkins. Let the killing commence.

Her voice is beautiful and all her work done with intelligence and finish."

In another column will be noticed the call for the annual meeting of the business Men's Association at their rooms in the Pheebus block at 8 o'clock this morning. The meeting is an important one and should be well attended. Many good reasons might be named for encouraging the organization that has accomplished so much for the city. The committee that have been selling tickets for the banquet report that the best of feeling prevails among the business men and a general desire was expressed that the association would prosper. With the commencement of the new year, new life should be given to the organization and much may be accomplished before the year closes. Attend the meeting this evening and show by your presence at least that you have faith in the Business Men's Association.

SAID IN HOLY PLACES.

SUGGESTIONS MADE BY JANESVILLE PASTORS.

Two Eloquent Sermons by the Rev. Theo. Riley, of Nashotah College—New Church Services Led by Rev. Mr. Bartels at Janesville Homes.

Rev. Theo. M. Riley, S. T. D., professor of Nashotah College, preached at Christ church yesterday. The subject of his morning sermon was: "We Are Commanded To Believe." He insisted that materialism was repugnant to common sense. All believe there is a plan and a mind back of all human structures. So there must be a plan and a mind back of nature as opposed to the materialistic doctrine of 'fortuitous combinations.',

Dr. Riley's evening discourse dealt with the spirtual side of man's nature. In his mental and physical life, man, he said, differs from other creatures only in degree; but in respect to soul, he differers from them in kind. Over development of the mental nature, at the expense of the spiritual, starved the soul just as lack of food would starve the body.

Three Sermons by Mr. Bartels.

The Rev. A. J. Bartels, of Chicago, a minister of the New Church, preached at three services in this city on Saturday evening and Sunday. The Saturday service was held at the home of Mr. and Mrs. E. G. Fifield, in the First ward, at 7:30 p. m. The two other services were conducted at the home of Judge Bennett at 10:30 a. m. and 7:30 p. m. Sunday. The evening service was quite largely attended, and the sermon of Mr. Bartels on spiritual life and the future state, was listened to with deep interest and much profit. A choir composed of several of Judge Bennett's intimate friends, who have joined him in sacred song for a number of years, furnished the music.

Hints of Pastoral Changes.

The calling of a Janesville pastor by a church of another denomination in this city is said to be no remote possibility. There is no liklihood that the change will be made soon, but it is furnishing food, nevertheless, for much discussion. The example of Rev. Mr. Updike in Madison, must be catching.

Talked of Mission Work.

The annual missionary meeting of the First Presbyterian church was held yesterday. Eloquent sermons on missionary topics were preached by the pastor, Rev. W. F. Brown, morning and evening.

Drops From Local Pulpits.

REV. E. L. EATON, D. D.—The earth with its richness, the sun with its satellites, and all the joys of life God gives even to those who are enemies against him. What must be the heaven that he gives to those who do his bidding?

REV. JAMES SLIDELL.—A lost soul is something that is not destroyed, but can be saved. Who will be lost when a way to escape has been offered?

REV. S. P. WILDER—In all the history of the world, taking the narrative through and through, there can be no comparison with the life of Christ.

The local lodge of United Workmen are greatly pleased at the efforts put forth by Mr. McLean.

G.—Nellie Blakely.

A Janesville Ghost Dance.

Janesville will have a ghost dance. The Light Infantry have decided to give their annual masquerade and ghost dance Monday evening, January 19. Tickets will be fifty cents, and the public is invited. Rain-in-the-Face, Young-man-not-afraid-of-his-horses, Two-Strike, and the remains of Sitting Bull as well as other noted Indians, good and bad, will be on the reception committee.

The $20 Ball Game Declared Off.

Captain Whiting, of the Earthquakes, will not be able to play ball tomorrow night, and the game between the J. L. I. and Earthquakes has been declared off. The N. O. W. club will play the soldier boys instead. Although the N. O. W. club have been twice defeated they have strengthened their team, and the betting is slightly in their favor.

New Floor For The Banquet.

A new floor is being laid in the dining room of the Myers House for the business men's banquet. The steam heating apparatus will also be in operation in time for the banquet. H. E. Merrill & Co. are doing the work.

GRANGE MEN AT WORK.

Actively Shown By Rock County Branches Of The Order.

A large and enthusiastic meeting of patrons and farmers was held in Janesville Grange hall Wednesday. The officers of Rock County Pomona Grange were installed by State Lecturer Oscar Pixley, of Jefferson county, assisted by his accomplished wife. Mr. Pixley gave an excellent address which was listened to with much interest. A resolution endorsing the Conger lard bill, was ordered sent, under the seal of the Grange, and with master's and secretary's names attached, to John C. Spooner. The next meeting will be held in the same hall, Wednesday, February 11, at 10 o'clock a. m.

On Thursday, January 8, Patrons of Husbandry Hall and its surroundings at Milton Junction looked as though a big farmers convention was being held. It was the occasion of the installation of the officers of Du Lac Grange by Oscar Pixley and wife. The hall was well filled with Patrons and our dining hall at noon was twice filled. Eight applications were presented to become members of this Grange which makes over 100 of as intelligent and earnest a body of men and women as can be found in this state or any other state. With the reduction in membership fees to one dollar for men and fifty cents for women no one who is eligible can now find fault with the price.

THAT DEADLY TOWN PUMP.

Damage Suits Likely to Follow If Ice Accumulates.

The accident which befell R. J. Richardson Saturday afternoon at the corner of West Milwaukee and North Franklin streets, is more serious than was at first supposed. Mr. Richardson fell heavily on the ice, spraining his right ankle so severely that he will be confined to the house for some days. Hardly a day passes during the cold weather that some one does not fall on this particular walk. It behooves the street commissioner to adopt some plan by which these accidents may be avoided before the city is called upon to pay a round sum of money as damages.

The old town pump no doubt is a great convenience to many people in the neighborhood who depend on it for a water supply. At the same time there is no necessity for the city longer tolerating it in that locality. The people may quench their thirst at the drinking fountain near by, and those who use water for private purposes, should obtain it as other people do through their own private service, and not cause the public to be mulcted in heavy damages for their personal accommodation.

WILL THEY DRAIN THE MARSH?

Work Laid Out For The County Board Next Week.

The most important business to come before the annual meeting of the county board of supervisors next week will be that of the Marsh Creek ditch. The question of building this ditch for the purpose of draining a large tract of land in the towns of Janesville, Center, Magnolia, Union and Porter, has been before the county board for some time, and postponed or referred to special committees. Surveys have been made, and estimates giving the probable cost of the work, and the acres of land to be reclaimed.

There is considerable opposition to the adoption of the measure, even by those owning portions of the marsh to be reclaimed, although a number are enthusiastically in favor of the improvement.

The board will meet at 2 o'clock on Wednesday afternoon, and will probably remain in session two or three days, as considerable routine and miscellaneous business will be disposed of.

WON'T SELL TO RATE CUTTERS.

Druggists Receive Assurance of Protection from Wholesale Houses.

"You have no idea," said a Milwaukee street druggist this morning, "how trade is affected by the cutting of prices on patent medicines by firms who buy in very large quantities and advertise to sell the goods very cheaply. The retail dealers have protested against the practice, and now we are getting a circular from most of the manufacturers saying they have added to their contract—which all jobbers who purchase goods must sign—a paragraph which binds them not to sell any preparation manufactured by that particular company to any advertising cutter, designated as such by the sub-committee appointed for that purpose by the National Wholesale Druggists' Association, except at full-list prices, without discount. That is a step in the right direction."

Edward Joseph Barrett died at the home of Peter Barrett in the town of Center at eleven o'clock last night, aged five months and fifteen days, after a brief illness with congestion of the lungs. The funeral will be held from the residence at 10 o'clock Tuesday morning.

Kitty Golden, the six-year-old daughter of Mr. and Mrs. John Golden, died at their home four miles south of the city this morning. Diphtheria was the cause of her death. The funeral will be held from the house at twelve o'clock to-morrow.

THE TRUE CRITIC.

Is the Paid Writer the Bets Judge of a Play?

Was dramatic criticism ever an art? If it were; is it not now a lost art?

To the modern critic, a play is like the famous little girl of the doggerel:

When she was good, she was very, very good.
And when she was bad she was horrid.

Such a course, in the end, works its principal harm to the critics themselves. It has come to this pass, that few put faith in dramatic criticism. The true critics of the day are to be found among the more cultured of the theatre-goers—persons who visit a play-house not to be blindly amused, but to know what it is that amuses them. Says a well known writer:

"I stood in the wide lobby of the Twenty-third Street Theatre, New York, one night in September, and was guilty of eves-dropping. It was a "first night" and the audience was a brilliant and representative one. Persons famous in art, literature, politics, law and commerce made up the gathering. The usual assemblage of chronic "first righters" was there, also.

"The first man who passed me by was a well known democratic writer. He was laying down the law to a youthful friend, with wise shakes of the head, and sweeping gesstures with his dexter hand.

"'It won't do,' said he, conclusively; 'it won't do. Nothing in it—not even money. Exciting, of course—a dime novel is exciting, but no one admires novels. Yes; I admit that it is well-written and well costructed. but—Oh! well; it's a failure, that's all.' And he went on his way, serene in his own confidence in his own judgment.

"I had seen the play, and found my ideas totally at variance with those expressed by this gentleman, so I listened anxiously to the next comment heard by me. It came from Colonel Robert G. Ingersoll, who passed by, his charming daughter on his arm:

"'I was never so aroused in all my life,' I heard him say. It is magnificent. The shipwreck would vivify a marble statue. My blood fairly thrilled.'

"I had myself felt some of the effect described by the eloquent agnostic, and I was a little more at ease while waiting the diction of these amateur critics.

"A sturdy, upright old gentleman, with ruddy, jovial face framed by a leonine mass of silver-white hair and beard, was chatting volubly with a matronly woman who hung upon his arm. I recognized him as Rear-Admiral Braine, now in command of the Brooklyn navy yard.

"'You are right,' he was saying, in response to some remark from his companions, 'it is one of the best plays I have ever seen. I myself have felt the horrors of shipwreck, and have believed that they could never be represented truthfully. But I was mistaken. This storm which we have just witnessed is so like the real thing that I believe that only an old sailor like myself can appreciate it. Whew! I can almost feel the wind and the salt spray in my face,' and he actually wiped his brow, as if the realism of the play had carried him away.

"So for fifteen minutes I listened to the judgment of those who had seen the play, and the verdict from one and all was that no matter what critics might say, 'The Great Metropolis' was the greatest drama of the season—a hit of hits."

PROF. GORDON IN JANESVILLE.

Lessons in Vocal Music on Tuesdays and Fridays.

Professor C. E. Gordon, the well known vocalist, has established a studio in Chicago, but will be in Janesville on Tuesdays and Fridays for the purpose of giving instruction in vocal music. Professor Gordon has the Italian method of singing, and he is highly recommended by the leading musicians of Chicago—Signor Jannotto, Professor James Gill and others. He has been very successful as a teacher in Beloit where he has made his home for some time past. He will give private instruction in the Italian method, ballad, oratorio or operatic singing, and will be pleased to see any one and test their voice. Voices will be tried free of charge, on Tuesday, at Mrs. J. B. Day's studio.

HEARD IN HOTEL LOBBIES.

"Marshalltown business men put their peg considerably above Janesville in the matter of banquets," said F. L. Hart, who hails from that Iowa city and who handles corner lots. "They gave a banquet the other day at $5 a plate. Their wives, unknown to them, furnished the banquet, and the proceeds, amounting to $1,000, were given to the poor."

* * *

One of the men who enjoyed the dinner at the Grand to-day was H. G. Stevens, of Sioux Falls, Dakota. Mr. Stevens protests vigorously against indiscriminate contributions to "Dakota drouth sufferers," "In some parts of Dakota," he said, "there is suffering, but many of the people who are going about begging for aid for these sufferers are frauds. The people they swindle should know it. It is very unsafe to trust any one not provided with a certificate signed by the commissioners of his county."

Dr. Coffee Has Come to Stay.

Dr. Coffee moved into his new office on South Franklin street three doors back of Sherer's drug store at corn Exchange Saturday. He will make Janesville his permanent home, he will be in his office every day this month except the 15th and 16th, and every day after that he has decided to quit traveling and make no more trips to other towns. He will devote himself entirely to his practice here limited to diseases of the eye ear, nose and throat and orthopordic surgery. He is thoroughly equipped for treating those diseases in the newest and latest development. Janesville has needed an eye and ear surgeon and we think Dr. Coffee can fill the bill.

How Intelligent Women Decide.

When the question has to be met as to what is the best course to adopt to secure a sure, safe and agreeable remedy for those organic diseases and weaknesses which afflict the female sex, there is but one wise decision, viz., a course of self-treatment with Dr. Price's Favorite Prescription. It is an unfailing specific for periodical pains, misplacement, internal inflammation, and all functual disorders that render the lives of so many woman miserable and joyless. They who try it, praise it. Of druggists.

Praise for Mrs. Johnstone Bishop.

Of Miss Genevra Johnstone's singing in Lincoln, Nebraska, the Lincoln Journal says: "Miss Johnstone is one of the best singers we ever heard. In such a quiet way, without any apparent effort, her song goes directly to the hearts of her listeners, whom she holds entranced. Her voice is wonderfully clear, sweet and expressive. She sings with her whole soul as a true artist should. Miss Johnstone has appeared before in this city as soloist for former festivals, and has become a great favorite here."

VILAS INTERESTS SECURE A MADISON ORGAN

L. M. Fay Secures the Interest of Bryant and Raymer, and Announces That the Wily Colonel Will Have All but Eight Votes.

MADISON, Wis., Jan. 12—[Special]—L. M. Fay bought out Bryant & Raymer's interest in the Madison Democrat to-day, taking over one-half of the capital stock of ninety thousand dollars. This change makes the Democrat a strong Vilas organ.

Fay places Vilas' senatorial strength in the legislature as follows: Vilas all but eight, Bragg, 5; Winans, 1, and two scattering.

The purchase of the Democrat by the Vilas interests is thought to assure the Madison colonel's election.

CAN'T GET ENOUGH SKATES.

The Demand for Gazette Premiums Exceeds the Supply.

The demand for Gazette skates has been greater than the supply.

Saturday, for the first time since the offer was made, it was impossible to send all the applicants away happy. The heaviest call has been for skates of smaller size, showing that in enterprise and perseverance the ubiquitous 'little brother" put him ahead of the youth of larger growth. Another consignment have been ordered by telegraph, and we hope that by Wednesday our assortment will again be complete. Until then those of our friends who are on the anxious seat must possess their souls in patience.

WILL TALK OF SCHOOLS.

Work to Come Before the Common Council To-nigut.

The most important business to come before the common council this evening, will be the resolutions of the board of education asking the council to take action on the proposition of erecting two new school buildings this season, and the purchase of a school house site in the second ward. The council will in all probability instruct the school board to prepare plans and specifications, and get the matter in shape for more definite and final action.
